

womanizer®

**A guaranteed orgasm for (almost) any woman -
the popular womanizer is now available "to go"**

The brand womanizer® accepted the challenge to eliminate the so called "orgasm gap" and thereby change the lives of many women.

History

68-year-old Michael Lenke has created lots of inventions, holding over 100 global patents. When, a few years ago, he read a study about the status of women's difficulties in achieving orgasm, it became clear to him what his next challenge should be. An 18-month period of development and testing in his workshop and bedroom at home in Metten, a village in Lower Bavaria with a population of just 4,000, climaxed in 2014 with the launch of the womanizer® - a world first.

The reaction to the Lenkes' product so far has been overwhelming, coming mostly in the form of fan mails or gifts. Women constantly gush over a new kind of orgasmic feeling, that they reach quickly and often repeatedly.

Technology

The womanizer® is not inserted into or placed on top, but is positioned without touching the clitoris. Unlike traditional sextoys, stimulation is therefore not achieved via penetration or vibration. Instead, Pleasure Air Technology® is used, to provide the clitoris with finely adjustable amounts of stimulation. Hence over-stimulation of the clitoris is a thing of the past.

womanizer®

What's new

The womanizer 2GO, which looks like an elegant lipstick, and, as such, disappears unobtrusively into any handbag or backpack. It is light (weighing just 130g) and ideally suited for transportation, with a rectangular shape that measures 125 x 35 x 35 mm. Now women can have the confidence to leave their other makeup behind, because what looks better than a natural #orgasmglow.

Product details

- Price: 159 Euro
- Colours: black/gold, ivory/gold, mint/pink
