

womanizer®

Size is a plus!

The womanizer® +size has a long, flat handle surface for more ergonomic flexibility – even for the use with a partner.

The technology

This is how the new feeling of pleasure works:

Unlike conventional toys, the clitoris is stimulated with the revolutionary Pleasure Air Technology® in fine-tuned intensity levels via pulsating pressure waves. Thanks to the non-contact application, habituation and over-stimulation are absent.

Sexual release in minutes? Multiple orgasms? Unprecedented sensations? All inclusive!

Product highlights

- 12 intensity steps
- 100% waterproof – IPX7
- 2 stimulation heads in different sizes
- Rechargeable lithium ion battery
- size: 21,5 x 6,0 cm
- price: 189 Euro

About womanizer

Womanizer Group Management GmbH is a globally operating company with locations in Berlin, San Francisco and Hong Kong, specialising in the development of high-quality products for women's love lives. Founded by Michael Lenke in 2013, when Pleasure Air Technologie® was invented, the group now employs 25 staff, working towards a common goal of improving relationships and their clients' sex lives, and closing the „orgasm gap“.
